from [raincoaster.com](http://raincoaster.com)

"Got your back(s)"	Tieless	Uighurs	Shout out to random Canadian in anecdote	"Got your nose(s)"
Unequivocal statement of optimism	Somebody in government gets an alert through the federal app	"Bend the curve"	Says diagnosis rates down in at least 1 province	Christmas or Easter specifically mentioned
Same question about why we don't make our own vaccines	"Coercive diplomacy"	FREE SQUARE	I make a coffee and forget it in the kitchen (can sub "you" for "I")	Fails to translate answer into other official language
"Shovel-ready"	Briefing is called on account of weather	"Flatten the curve"	Trudeau looks cross for a reason apparently unrelated to the briefing	Feels parents' pain
"Five Eyes"	Crowd Laughs	"Whatever it takes, as long as it takes."	Bromance	Insulated mug instead of glass of water/vodka
